EXPLANATION

Taxing Authorities

COLUMN 1 - "Last Year's Actual Tax Rate" and "Your Property Taxes Last Year"

These columns show the tax rate and taxes that applied last year to your property. These amounts were based on budgets adopted last year and your property's previous taxable value.

COLUMN 2 - "Last Year's Adjusted Tax Rate" and "Your Taxes IF NO Budget Change is Adopted"

These columns show what your tax rate and taxes will be this year if each taxing authority does not change its property tax levy. These amounts are based on last year's budget and your current assessment. This is sometimes known as ROLLBACK.

COLUMN 3 - "This Year's PROPOSED Tax Rate" and "Your Taxes if PROPOSED Budget is Adopted"

These columns show what your tax rate and taxes will be this year under the budget actually proposed by each local taxing authority. The proposal is NOT final and may be amended at the public hearings shown on the front side of this notice. **The difference between columns 2 and 3 is the tax change proposed by each local taxing authority and is NOT the result of higher assessments.**

Note: Amounts shown on this form do NOT reflect early payment discounts you may have received or may be eligible to receive. (Discounts are a maximum of 4 percent of the amounts shown on this form.)

Non-Ad Valorem Assessments:

Non-ad valorem assessments are placed on this notice at the request of the respective local governing boards. Your Tax Collector will be including them on the November tax notice. For details on particular non-ad valorem assessments, contact the levying local governing board.

Your final tax bill may contain additional non-ad valorem assessments which may not be reflected on this notice, such as assessments for roads, fire, garbage, lighting, drainage, water, sewer, or other governmental services and facilities which may be levied by your county, city, or any special district.

Property Appraiser

Market Value

Market (also called "just") Value is the most probable sale price for your property in a competitive, open market. It is based on a willing buyer and willing seller.

Assessed Value

Assessed Value is the Market Value of your property minus any assessment reductions or limitations. The Assessed Value may be different for levies made by different taxing authorities.

Assessment Reductions/Exemptions (GRAY BOX)

Properties can receive an assessment reduction/exemption for a number of reasons. Some of the common reasons are below:

- There are limits on how much the Assessed Value of your property can increase each year. The Save Our Homes program and the limitation for non-homestead property are examples.
- Certain types of property, such as agricultural land and land used for conservation, are valued on their current use rather than their Market Value.
- Some reductions lower the Assessed Value only for levies of certain taxing authorities.

If your Assessed Value is lower than your Market Value because limits on increases apply to your property or because your property is valued based on its current use, the amount of difference and reason for the difference are listed in the box titled "Assessment Reductions/Exemptions".

Exemptions

Exemptions that apply to your property are listed in this section along with the corresponding exemption value. Specific dollar or percentage reductions in assessed value may be applicable to a property based upon certain qualifications of the property or property owner. In some cases, an exemption's value may vary depending on the taxing authority.

Taxable Value

Taxable Value is the value used to calculate the tax due on your property. Taxable Value is the Assessed Value minus the value of your exemptions.
